

EARTH POWER

Holistic wellness for home & living

Harness nature's purest gifts to center your spirit, align your¹
space, and elevate everyday living

*"It doesn't get much greener than
essential oils: when used
correctly, they are among Mother
Nature's most potent remedies".*

– Amy Leigh Mercree

On the left, there are daisies and other small white flowers. At the bottom, there are more green leaves, pink flowers, and sprigs of lavender. The background is a light beige color.

Taking you back to nature

We've spent the better part of our lives learning that the simplest of things are usually the best. When we started Earth Power, it wasn't about reinventing the wheel—it was about getting back to what works.

Living here in New Zealand, we're lucky to be surrounded by such beauty, and we believe your home should be an extension of that. For us, that means creating a space that's genuinely safe. We wanted to move away from the harsh cleaners and synthetic fragrances that seem to be everywhere these days, and get back to using what nature gave us.

Essential oils aren't just about a nice scent. They've been used for generations to do it all—clearing the air naturally, uplifting your mood, and bringing a holistic balance to your space without feeling like a chemical lab. Whether it's bergamot to freshen the room and lift your spirits, or cedarwood to ground your energy, these pure oils do the heavy lifting for both your home and your wellbeing.

For us, Earth Power is about taking the stress out of keeping a home. It's about knowing that when you spray your surfaces, you're not putting anything nasty down where your kids, your grandkids, or your pets are playing.

We're Devender and Anna, and we're here to help you turn your home into a sanctuary. It's about creating a space where you can breathe a little easier, grow a little closer, and feel a lot more at home.

We'd love for you to join us in making that change

you like sunlight into trees.”**

NATURE'S MAGIC

A harmonious blend of essential oils, baking soda, plant-based emulsifiers, and water. True holistic wellness in a bottle introducing
Essential Wonder Spray

THE SCIENCE OF PURE MINERAL MISTS

PLANT BASED ODOUR NEUTRALISER & SPACE CLEANSER

TRIPLE-ACTION BASE CHEMISTRY

- **Purified Water** — The Liquid Medium

Provides hydration and mist dispersion, allowing delicate essential oils to circulate evenly throughout room air without heavy residue.

- **Baking Soda** — Sodium Bicarbonate

Natural alkaline mineral that chemically neutralises acidic odour compounds (sweat, food decay, foot odours) at a molecular level instead of masking them.

- **Plant Emulsifier** — Natural Surfactant Polysorbate

Permanently binds water and essential oils together. Prevents oil separation, eliminating greasy spots on fabrics or slippery floors.

WHY DIY SPRAYS FAIL VS. EARTH POWER WONDER SPRAYS

✗ STANDARD DIY WATER + OIL SPRAYS

- Separates instantly; requires shaking before every use
- High risk of oil droplets hitting fine fabrics and leaving stains
- Can leave a slick greasy oil film on hard floors & yoga mats
- Temporarily masks bad odours with heavy perfume smells

✓ EARTH POWER ESSENTIAL WONDERSPRAY

- Permanently suspended, stable & completely uniform solution
- 100% Non-staining & safe for cotton, linen, velvet & upholstery
- Dries completely clean without any sticky or greasy residue
- Chemically destroys odour molecules while scenting naturally
